## WORK EXPERIENCE

**Data Analyst (part-time) | Micrometrics** (Oct 2023 - Current) | Ottawa, Ontario

- **Develop and maintain** a client database through data extraction, data cleansing and reorganizing data into a readable format.
- **Communicate** with the supervisor to understand the data analysis requirement and effectively interpret findings to the management.
- **Optimized** data analysis process by utilizing Power Query to automate the data extraction process, create merged tables and data analysis reports.

**Website Creator (contract) | CHSS Investment & Management** (Apr - Sept 2021) | Ottawa, Ontario

- **Designed and built** user friendly websites, using online tools such as GoDaddy, to promote the company's business and its services.
- **Collaborated** with the clients to create a residential property management website.
- **Designed and implemented** features, allowing users to view available properties and submit rental applications online.
- **Streamlined** the application processes by eliminating manual steps through the development of a digital property management website.

**Research Data Entry Intern | Micrometrics** (Jun - Aug 2019) | Ottawa, Ontario

- **Researched** potential customers information through the internet and performed data entry in Google Sheets.
- Attended weekly meetings and sought performance feedback from the supervisor.
- The project contributed to **expanding** the company's client database.

**Swim Instructor (part-time) | North Toronto Christian School** (Nov 2017 - Feb 2018)

- **Instructed** group swimming lessons to swimmers aged 2 -15; **demonstrated** basic swimming technique and **assisted** students in achieving their skill-based goals. **Organized** swim programs and evaluated student performance and prepared report cards.
- Enhanced **communication** skills.

**Vacation Bible School Leader | Scarborough Chinese Alliance Church** (Summer 2008-2017) | Chibougamau, Québec

- Worked as a member of a short term mission team to serve the aboriginal children; **facilitated** engaging activities fostering critical thinking and problem-solving skills in campers aged 8 – 12.
- **Collaborated** with other team leaders in organizing daily activities, showcasing strong **teamwork**.
- **Adapted** to challenges, contributing to a positive and inclusive learning environment.

## SCHOOL PROJECTS

**Game Developer/Designer** (Jan 2020 - Apr 2023)

- Created game assets and worked on general development, with a group of peers, for three titles that were released on itch.io
  - Barotrauma (2020) <https://jjthething.itch.io/barotrauma>
  - Mecha Mayhem (2021) <https://jjthething.itch.io/mm-demo>
  - Table Fable (2022) <https://jjthething.itch.io/table-fable>
- Designed and created a virtual reality (VR) game for Meat & Poultry Ontario to be utilized in the marketing campaign (2023)
- Participated in Game Jams (2019 - 2023) <https://jonathan-leung.itch.io/> to enhance time management and prototyping skills.
